

# PROPIPE & WELD

PIPING MADE EASY

## ABOUT

Since 2016, Pro Pipe and Weld (Pty) Ltd, a 100% South African owned and operated business, has been offering industry leading HDPE pipe services, thermal pipe welding, fitting and related services. With teams throughout South Africa the company has over 30 collective years experience in the piping industry which has seen the company develop into a business whose specialised services are sought nationwide by both the private and public sectors.

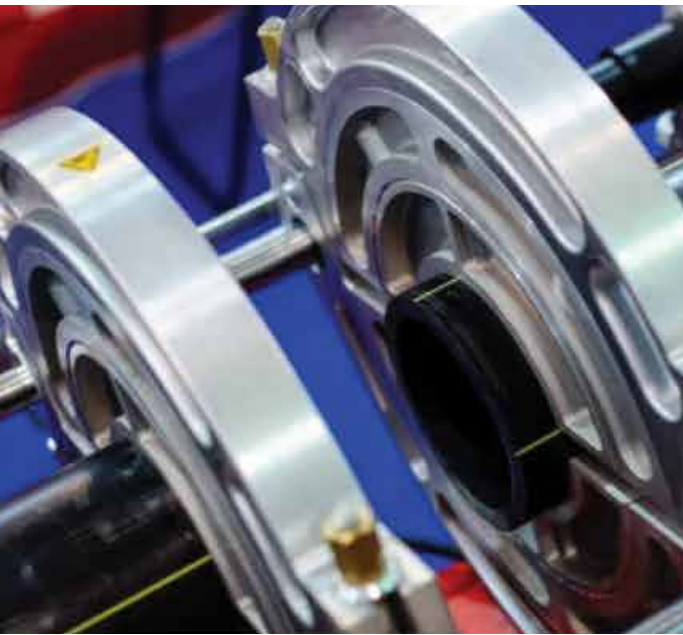

We provide infrastructure and construction projects with unique solutions based on our full range of applications including:

- Full HDPE turnkey installations
- Tank refurbishment and relining
- HDPE and PVC welding
- Manholes, valve chambers and custom built tanks

We have highly skilled and experienced staff who have undertaken multiple projects across South Africa. We have developed a reputation for our service and high standard of work. We regard ourselves as leaders in the fields of pipeline maintenance, inspection, plastic welding and fabrication services. Our vision is to become the first choice for HDPE and PVC pipeline installation in South Africa, by offering the best service and products to our existing and future customers. Safety is amongst our core values and we pride ourselves on putting our clients first, and the satisfaction of our clients as one of our main priorities.

We are a **Level 4 BBBEE** contributor.
